

As a truck driver, I really benefit from listening to XM Radio and Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not readily available elsewhere. Since I pay for these services, it should not be up to the National Association of Broadcasters to determine what I am permitted to hear.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
